

CALL FOR PROPOSALS - PROFESSIONAL DEVELOPMENT SYMPOSIA

Professional Development Symposia (PDS) offer the opportunity for creative, multi-way conversations, and have the potential to provide a positive impact on the professional development of participants from different regions, SIGs, chapters, career stages, or demographic backgrounds.

The PDS chairs encourage anyone interested in organizing a PDS to submit a proposal – these proposals can be SIG-related, cross-SIG, or designed for a general audience.

In keeping with the AMCIS 2023 theme, “Diving into Uncharted Waters,” we are looking for submissions that will further our ability to develop welcoming and inclusive environments that, in turn, leverage all of our talents to produce research at the cutting-edge practice. We encourage sessions that exchange ideas about novel approaches and topics most relevant to the IS practice community. Previous PDS topics have included novel research methods, emerging industry domain knowledge, and empowering academic work practices.

Submission Instructions:

Proposals can be brief but should provide an outline sufficient for the reviewers to make a recommendation on their applicability, likelihood of drawing an audience, and suitability. To propose a PDS session, download and complete the provided template.

Important Dates:

- May 9, 2023, 10:00 am EST: Deadline for proposal submission
- May 18, 2023: Notification of acceptance
